

## Final Exam Details

- A cover page and 8 pages of questions
- Pages 1, 2 – Graphs. (Exam 1 material)
- Pages 3, 4, 5 – Algebra. (Exam 2 material)
- Pages 6, 7, 8 – Interest. (Ch. 6 material)
- 170 minutes, you have 21.25 min/page.
- Check your work!

I hope you have learned something this quarter. Here were the course goals:

1. Rates and graphs (precalculus)
2. Common business terms
3. Proficiency with basic algebra  
(lines, quadratics, pow/roots, exp/ln  
solving systems of equations)
4. Proficiency with functional notation.
5. Familiarity with common techniques  
(Max profit, BEP, SDP, linear prog.,  
max/min, supply/demand)
6. Know basic interest-bearing accounts.

My additional goals for you were to:

1. Learn how to effectively study.
2. See many basic applications of math.
3. Become a better organized-thinker/reader.
4. Get a very small glimpse of fundamental role math plays in our modern world.

Grades will be posted Friday of finals week. I will send out an email the moment grades are posted.
