

DIFFERENTIAL GEOMETRY/PDE SEMINAR

WEDNESDAY, OCTOBER 10, 2012

PADELFORD C-36

3:50PM–5PM

Bike tracks, Schroedinger's equation, forced pendula and the symplectic group

Mark Levi

(PENN STATE U)

I will describe each of these objects and then will describe a surprisingly close connection between them.

For more information about this seminar, visit the DG/PDE Seminar Web page (from the Math Department home page, www.math.washington.edu, follow the link **Seminars, Colloquia, and Conferences**).
