

## WHERE THE MONEY IS

Friday, June 3 at 3:30PM

Parrington Hall, Rm. 308

*Who pays you to go to graduate school?*

The VIGRE Professional Development Committee invites you to attend a panel discussion on your funding options in the mathematical sciences. The discussion will be guided by your questions. Topics include, but are not limited to:

- Finding an RA or summer internship
- Grants/Fellowships currently in place,
- Attaching yourself to existing grants,
- Applying for new grants/fellowships,

Our panel is composed of professors from all three participating VIGRE departments at the University of Washington. They are experienced with funding options for both graduate and undergraduate students.

We hope you will join us for this frank and informative discussion. Pizza (we promise this time!) and other refreshments will be served during and after the discussion.
