

## Math 126 End of Week 4 Newsletter

### UPCOMING ASSIGNMENTS

- *Closing Today (Sun):* **Canvas** Quiz 2 on Chapter 13
- *Tuesday (Feb 2):* Exam 2 – Chapter 13 on **Gradescope**
- *Thursday (Feb 4):* 14.1 HW closing (don't forget!)

### UPCOMING SCHEDULE:

- Monday: Open Review – Bring Questions! I'll be on from 9am to 11am.
- Tuesday: **Exam 2 – Ch. 13 on Gradescope**
- Wednesday: Live-Stream – 14.1/14.3 (Surface and partial derivatives) – **Watch 14.1 & 14.3(1) Before**
- Thursday: Test Prep on 14.1, 14.3, 14.4 (lots of partial derivatives practice, please attend!)
- Friday: Live-Stream – 14.3/14.4 (partial deriv. and tangent planes) – **Watch 14.3(2) & 14.4 Before**

**NEW POSTINGS:** There are several new postings which should help over the next week:

1. [Summary of 13.3, 13.4 and 14.1](#) (an example of a 14.1 problem is in here).
2. [Chapter 12 and 13 Fact Sheet](#). Things that are good to know for exam 2.

My test prep on Thursday will contain many useful links for chapter 14 materials

See my newsletter from last week and the discussion boards for more examples and old exams to practice relating to chapter 13.

In addition, the Exam 2 Review page of the discussion board has lots of info and links to old exams as well (plus you can ask questions here):

[https://canvas.uw.edu/courses/1432364/discussion\\_topics/5963175](https://canvas.uw.edu/courses/1432364/discussion_topics/5963175)

I hope some of this helps.

Dr. Andy Loveless
