Assignment 5 (due Monday, 11/1)

Study Section 14.6

Recall: **problems with red numbers have hints online.** There is a link to the textbook website on the 324 page. If you are puzzled by a certain kind of problem, try out these online resources.

- **Problems to do but NOT turn in** (the idea is to review and practice):
  - 14.6, pp. 920-922: #7, 8, 9, 10, 11, 43, 47

- **Problems to turn in:**
  - 14.6, pp. 920-922: #1, 13, 31, 39, 48, 49, 61

**Note: The MIDTERM is Wednesday, 11/3**

To prepare, review old homework and quizzes. Also include the recent sections that did not appear on quizzes (for example, integrals on surfaces and the material in this homework). Be solid on the basics of lines and planes.

You can bring a one-sided HALF PAGE of notes to the midterm.
