

Reading:

- Venema, Sections 7.3–7.6 and 9.1–9.2.

Reading Report: Due Sunday, 4/13, by midnight.

Written Problems: Due Wednesday, 4/16, in class.

- Venema, pp. 156–157, Exercises 7.5, 7.6, 7.8, 7.9, 7.13.
- Venema, p. 221, Exercises 9.2, 9.3, 9.7, 9.8, 9.9.

First Portfolio Assignment: Two copies due Friday, 4/18, in class.

Rewrite your proofs of Exercises 6.10, 6.11, 6.12, with due attention to writing style as well as mathematical correctness. Be sure to reread last quarter's handout *Conventions for Writing Mathematical Proofs* (linked on the class website) and follow what it says. Bring two copies to class for peer evaluation.

For this assignment, imagine you are writing this as a stand-alone handout to give to the class, as a supplement to Venema's Chapter 6.4. Be sure to put the results in context, and remind the reader of any important facts from Venema that they will need to keep in mind.
