Office Hours: MW 9:30-10:20, C439 Padelford
Quiz Section: F 10:30, PAR 206
TA: Nick Reichert
Office Hours: TBA C115 Padelford
E-mail: nwr@u.washington.edu
Text: *Advanced Calculus* (required)
Author: Gerald Folland

Math 335 investigates the properties of sequences and series of numbers and functions. It is an introduction to topics that will be covered in more depth in Math 424, 428, and 429. Before we start on these topics we will finish up the material on several variable calculus that we left hanging last quarter. I'm not sure of that I will stick to this schedule and I will announce changes as they occur. I intend to cover the following topics.

1. Stokes's theorem and applications to physics
2. Infinite series
3. Uniform convergence
4. Introduction to power series
5. Improper integrals and special functions
6. Fourier Series

Homework will be collected at regular intervals and will count 20% of the course grade. There will be two 50 minute midterm tests which will count 20% of the course grade. The midterm tests will be closed book but you will be allowed to bring notes on **one side** of a notebook size sheet of paper. There will be a two hour closed book final exam which will count 40% of the course grade. For the final you will be allowed to bring notes on **both sides** of a notebook size sheet of paper. No calculators will be allowed on tests.

Here are the homework assignments :

DATE	ASSIGNMENT (from Folland)
Jan. 6	§5.7: 1, 6, 7; §5.8: 1eg, 2, 3, 4
Jan. 13	§4.5: 1, 3, 5, 6; §4.6: 1d, 2b, 3f, 4, 8; §4.7, 3, 4
Jan. 20	§5.6: 1, 2; §6.1: 1d, 2bcd
Jan. 27	§6.2: 1, 6, 8, 13, 19, 21, 22
Jan. 30	MIDTERM
Feb. 3	§6.3: 1, 3, 4; §6.4: 6, 10, 14; §6.5: 3, 4
Feb. 10	§7.1: 1cd, 2ce, 3, 6, 8; §7.2: 1, 3, 6
Feb. 17	§7.3: 1, 4, 9, 11; §7.5: 3, 4, 6, 8, 11
Feb. 24	§7.6: 2, 3, 5; 8.1: 1, 2; §8.2: 1, 4ab
Feb 27	MIDTERM
Mar. 3	§8.3: 2, 3c, 4, 6; §8.4: 1; §8.5: 1, 7
Mar. 10	§8.6: 2, 3, 4, 5, 6, 9ac
Mar. 13	FINAL EXAM (8:30-10:20 a.m.)

These assignments are due at the beginning of class on the due date.
