Steffen Rohde

28. (with Z. Chen) Schramm-Loewner equations driven by symmetric stable processes, Communications in Mathematical Physics 285 (2009), 799–824

35. (with J. Gill) On the Riemann surface type of Random Planar Maps, Rev. Mat. Iberoam. 29 (2013), 1071-1090

44. Conformal laminations and Gehring trees, preprint

In preparation:

(with K. Astala, O. Schramm) Self-similar Jordan curves
(with K. Astala, E. Saksman, T. Tao) Random quasiconformal maps
(with O. Schramm) The non-reversibility of $SLE_\kappa$ for $\kappa > 8$
(with B. Werness) CLE and Koebe Kreisnormierung
(with D. Marshall) The zipper algorithm for conformal maps and the computation of Shabat polynomials and dessins
